**Oscillatory Poisson ($\omega=10.0$) - L² Convergence**

Oscillatory Poisson ($\omega=10.0$) - Efficiency

Left plot — x-axis: Mesh size h; y-axis: L² error. Legend: Polynomial spline, Rational approximant, $O(h^2)$, $O(h^4)$.

Right plot — x-axis: Degrees of Freedom; y-axis: L² error. Legend: Polynomial spline, Rational approximant.
